REPORT OF THE BOARD OF TRUSTEES.

CITY HOSPITAL, BOSTON, April 30, 1876.

TO THE HONORABLE CITY COUNCIL:—

GENTLEMEN: The Board of Trustees of the City Hospital, in compliance with the Ordinances, respectfully present herewith their Twelfth Annual Report.

Number of patients remaining in the Hospital, April 30, 1875	241
Admitted during the year, —	
Medical	1,795
Surgical	1,331
Ophthalmic	54
	<u>3,180</u>
Treated during the year	3,421
Discharged	2,868
Died	290
	<u>3,158</u>
Remaining in Hospital, April 30, 1876	<u>263</u>
Largest number in Hospital at any time	297
Smallest number in Hospital at any time	171
Daily average number of patients	226 $\frac{1}{2}$
Average length of stay of each patient	days, 24 $\frac{1}{5}$
Number of patients treated in the out-patient department, classified according to their diseases: —	
Medical diseases	2,295
Surgical “	3,843
Diseases of the Eye	1,727
“ “ Ear	375
“ “ Skin	864
“ of Women	309
Total	<u>9,413</u>

Number of visits to the Hospital made by each class : —

Medical diseases	4,432
Surgical	"	7,328
Diseases of the Eye	10,963
" " Ear	1,992
" " Skin	2,856
" of Women	948
							<hr/>
							28,519
							<hr/>

The report of the Superintendent and Resident Physician, presented herewith, contains, besides other information, a statement of the expenditures for the year, and is accompanied by the reports of the medical staff. These reports give details in regard to the number of patients treated in the Hospital and as out-patients during the year, with classified statements of their diseases and the results of treatment.

The whole number of patients in the Hospital during the year was 3,421, and they were under treatment at an average of $24\frac{1}{2}$ days each, making a total of 82,831 days, or 11,833 weeks. The entire cost of maintaining the Hospital during the year, including every expenditure, was at the rate of

\$9.68 per week \$114,545 98

But of the patients enumerated above,

71 paid for $102\frac{1}{7}$ weeks' board 1,276 28

Leaving, therefore, the sum of \$113,269 70

as the cost to the city of treating 3,350 non-paying patients for a total of $11.730\frac{2}{7}$ weeks, which is at the rate of \$9.65 $\frac{1}{2}$ per week. But by averaging the net cost of maintaining the Hospital for the year, among all the patients treated, we find that the average cost to the city of board for each patient was \$9.24 $\frac{2}{3}$ per week. This cost includes all expenditures in excess of income and value of stock on hand, including cost of new equipment.

During the past year the Hospital has been in what may be called a state of transition, owing to extensive building operations; and this has in various ways affected the results of the year, and to some extent destroyed the usual bases of business and averages.

The Hospital has been enlarged by the addition of five new buildings; two for medical, two for surgical, and one for culinary purposes. Three of these buildings are already

occupied, and the others are nearly in readiness. The heating apparatus has been remodelled throughout, and largely increased in capacity. Many radical defects of drainage and ventilation in the older buildings have been remedied, while the new structures contain all improvements and appliances that experience and observation had proved valuable for the care and safety of patients. Other changes are making and to be made, and when all is accomplished, the Trustees hope this institution may at least compare favorably in point of equipment, discipline, and efficiency, with that of any other city.

As the subject of economy is one now exciting much interest, and has been raised particularly in reference to the conduct of the Hospital, it may not be improper to observe, that the aim of the Trustees has been to prevent waste or extravagance, and to reduce the expenses to the lowest point commensurate with efficiency. It will be seen, from the above statement, that the average cost of treatment is less than last year. The Trustees have no particular desire to institute comparisons of cost with that of other institutions. Neither have they any fear of the result if any are curious enough to make them.

It is presumed that the city of Boston desires that the suffering poor shall have every care and attention their situation may require, and that the Hospital shall yet come up to the standard contemplated by its founders, and prove itself a noble charity worthy of the city.

It is believed that with the Hospital as now arranged not only increased capacity and efficiency, but less average cost of treatment *per capita*, will result. The income from *paying* patients has been falling off in the last years. This is owing to various reasons, one of which is, that paying patients have been obliged to give way to those too poor to pay. The Hospital has had more demands upon it than could be met by its capacity.* The new buildings largely increase its capacity, adding 85 beds, and there can now be comfortably accommodated 375 patients. In the enlargement due regard has been had to the necessity of rooms for paying patients, and they have been provided; so that any now desiring rooms at a reasonable, moderate rate, can be furnished with them. The price of board will probably range from five to twenty dollars per week.

The construction of the new buildings, and the changes necessitated thereby, has of course been a work of much care

* The number of beds has heretofore been 230, but of these 40 were in basements, which have been abandoned for sanitary reasons.

and time, and from its peculiar character one of some perplexity. The Trustees, therefore, would fail in courtesy and justice did they not cheerfully acknowledge the valuable aid they have received from the medical and surgical staff of the Hospital, who have at all times been ready to give the results of their large experience to aid the work, and especially recognizing the zeal and devotion of the Superintendent, Dr. Edward Cowles, in all that has related to these improvements.

John N. Borland, M. D., one of the Visiting Physicians, resigned his position March 21, 1876. He was one of the first appointed to the medical staff, and one of the longest in attendance upon the Hospital, and his faithful service in so active a position is entitled to grateful recognition.

Winslow Lewis, M. D., one of the staff of consulting physicians and surgeons, died Aug. 3, 1875. Nothing can be added here to the eulogies already pronounced upon him as a good physician and a good man. The vacancy caused by his death was filled by the election of Dr. John N. Borland to the position.

O. W. Doe, M. D., who has served the Hospital three years in the medical out-patient department, was appointed March 29, 1876, to the vacancy caused by Dr. Borland's resignation in the visiting physicians' department.

On the 29th of March, 1876, A. L. Haskins, M. D., resigned from the medical out-patient service, and the two vacancies existing therein were filled April 18, 1876, by the appointment of T. Hall, Jr., M. D., and E. J. Forster, M. D.

Mr. Munroe Smith resigned his place as apothecary, January 11, 1876, and Mr. Alexander Rae was appointed to the position.

It is the duty of the Trustees again to recognize the interest manifested in the Hospital by its friends in many pleasant and unobtrusive ways. Gifts of fruit and flowers, of books, of religious offices, — these all cheer the sick and weary; and though the acknowledgment is a matter of annual occurrence, it is none the less grateful to repeat.

Some complaints there have been of the conduct of the Hospital, — generally founded upon misapprehension, however. All complaints have been heard patiently, and acted upon as circumstances seemed to fairly warrant.

The institution is certainly in a better condition for accomplishing good than ever before. It has more capacity, better discipline, better system, and a Superintendent zealous and interested in its greater success. For this greater success the Trustees are hopefully looking.

Respectfully submitted,

The Board of Trustees,

W. H. KENT, *President.*

REPORT OF THE SUPERINTENDENT AND RESIDENT PHYSICIAN.

CITY HOSPITAL, April 30, 1876.

TO THE BOARD OF TRUSTEES : —

GENTLEMEN : I have the honor to present herewith my Annual Report of the Hospital for the past year.

The following table shows the number of patients who have, each year, applied for admission, and been treated at the Hospital : —

	Patients examined for admission.	Patients admitted.	Patients accident- ally injured.	Number of Out- patients Treated.
From June 1, 1864, to December 31, 1864	703	475	129	371
From January 1, 1865, to December 31, 1865 . .	1,451	1,066	242	1,143
From January 1, 1866, to December 31, 1866 . .	1,749	1,432	345	3,324
From January 1, 1867, to December 31, 1867 . .	1,913	1,534	323	7,015
From January 1, 1868, to December 31, 1868 . .	2,729	2,078	417	8,794
From January 1, 1869, to April 30, 1870	4,632	3,054	482	11,721
From May 1, 1870, to April 30, 1871	3,977	2,396	525	8,899
From May 1, 1871, to April 30, 1872	4,387	2,873	565	8,947
From May 1, 1872, to April 30, 1873	4,326	3,304	660	7,526
From May 1, 1873, to April 30, 1874	4,250	3,201	804	9,272
From May 1, 1874, to April 30, 1875	4,652	3,424	756	8,732
From May 1, 1875, to April 30, 1876	4,434	3,180	689	9,413
Total	39,403	28,017	5,942	85,157

The number of patients, classified according to their diseases, who visited the Hospital for advice and treatment in the out-patient department, was as follows : —

Medical diseases, under charge of Drs. Doe and Haskins	2,295
Surgical diseases, under charge of the Visiting Surgeons	3,843
Diseases of the Eye, under charge of Drs. Williams and Wadsworth	1,727
Diseases of the Ear, under charge of Dr. Green	375
“ “ Skin “ “ Dr. Damon	864

Diseases of Women, under charge of Doctors Board-
man and Chadwick 309

Total 9,413

Net cost of maintaining Hospital, } from May 1, 1875, to Apr. 30, 1876 }	\$107,928 75	

Compared with the disbursements of the previous year, the net cost of maintaining the Hospital is diminished this year by the sum of \$2,880.58. The number of patients treated during the year was less by 241, but the number of weeks' board furnished was only $145\frac{2}{7}$ less than last year. Taking the total amount of disbursements, \$114,545.98, and deducting from it the excess of stock on hand at the end, over that at the beginning, of the year, including so much of the new furnishing as formed the equipment of new wards, necessarily occupied just before the close of the fiscal year, making the amount of deduction, for excess of stock, \$3,782.91; and deducting also the cash income, received from paying patients and the sale of old materials, we have left the sum of \$109,413.67 as the total cost to the city of supporting the Hospital for the year, which is at the average cost per patient of $\$9.24\frac{2}{3}$ per week.

The reduction in the number of patients was due to a loss of capacity of the Hospital, by reason of the repairs and alterations made in some of the wards, and was attended with much difficulty, not a few applicants being turned away for want of room, who were fairly entitled to admission. For the same reason the number of paying patients was much less also, and the demand for accommodations was urgent during the whole year, necessitating more continuous overcrowding in the available space than heretofore. The new buildings now approaching completion will be ready none too soon, and their partial occupation, for a short time, has already given promise that they will prove satisfactory.

Taken altogether the work of the year was unusually hard. The general confusion incident to the building of the extensive additions to the Hospital, and the alterations going on in the older buildings, causing inconvenient and unavoidable intrusion, in all parts of the premises, of many workmen during all the year, increased the labors and cares of the whole household, and made it impossible to maintain as orderly an administration of affairs as is desirable. During a large part of the year, illness prevailed among the employés to a marked degree, and was undoubtedly due to the amount of work they had to do, and the conditions under which they labored. It is to be noticed, that, notwithstanding this, the amount expended for salaries and labor was somewhat less than in the previous year. The subordinate officers, and the employés in general, deserve to be mentioned with much praise and commendation, for their patience and faithfulness under the circumstances. They have my sincere thanks.

The friends of the Hospital have continued their kind offices and benefactions to the patients.

The unusual labors, difficulties and consequent shortcomings of the management of the Hospital, during the year, call upon me for an acknowledgment of the indulgence, sympathy and aid given me by the gentlemen of the Medical Staff. The same is due to the Board of Trustees; thanks are due the Board, also, for such practical encouragement as, with the better facilities afforded by new buildings and other conveniences, now makes it possible to look forward to the carrying out of plans for improved methods of management, and for a more perfect and efficient administration of the Hospital than has been hitherto attainable.

Very respectfully, your obd't servant,

EDWARD COWLES,
Resident Physician and Sup't.

REPORT OF THE HOSPITAL STAFF.

MEDICAL DISEASES.

Classified according to the Nomenclature of Diseases, as published by the Royal College of Physicians of London, and American Medical Association.

DISEASES.	In Hospital, May 1, 1875.	ADMITTED.			DISCHARGED.						Remaining in Hospital. May 1, 1876.

OUT-PATIENT DEPARTMENT.

CUTANEOUS DISEASES.

IN CHARGE OF H. F. DAMON, M. D.

TO THE BOARD OF TRUSTEES OF THE CITY HOSPITAL : —

GENTLEMEN, — The following is my Eighth Annual Report of the Department for the Treatment of Cutaneous Diseases among out-patients : —

During the past year, eight hundred and sixty-four (864) new cases of cutaneous diseases have been treated, and twenty-eight hundred and fifty-six (2,856) visits made by patients under treatment.

The total number of new cases during the past eight years is seven thousand seven hundred and thirty-five (7,735) ; and the total number of visits is twenty-four thousand three hundred and ninety-one (24,391). Thus, an average of nearly a thousand patients a year have been treated, and over three thousand visits made to the hospital during the year.

With grateful acknowledgment for all that has already been done for the advancement of this department, let me still hope that my labors will be sustained by the earnest efforts of those engaged in the other departments of the hospital, to afford me all of the advantages within their power for the study and treatment of this large and complicated class of affections.

Respectfully submitted,

HOWARD F. DAMON, M. D.

BOSTON CITY HOSPITAL, April 30, 1876.

BEQUESTS.

GOODNOW FUND. — ELISHA GOODNOW, of South Boston (Ward XII.), who died in the year 1851, and whose will is dated 12th July, 1849, bequeathed to the city "all the rest and residue of his estate, real and personal, not otherwise disposed of," for the purpose of establishing, in the Eleventh or Twelfth Wards of the city, a Hospital for the sick. One-half of said funds to be applied for the establishment and maintenance of free beds, which should always be at the disposal and under the control of the Officers of the Government of said Hospital for the time being. Under this will, the city came into possession of certain real estate situated on Cross street, which has been disposed of, and has produced the sum of \$16,500, which has been invested in City of Boston Six per cent. Stock. Also a lot of land on Third street, South Boston, containing $6,683\frac{1}{3}$ feet, which was disposed of in 1867 for \$4,433.25, which, with the accumulated interest, making an aggregate of \$21,500, has been invested in City of Boston Six per cent. Stock. The \$10,000 deposited by the Executors of Mr. Goodnow, June 22, 1852, with the Massachusetts Hospital Life Insurance Company, the interest upon which is to be paid to the widow, will, upon her decease, be distributed as follows : —

\$500 to the Penitent Females' Refuge.

\$5,000 to City of Boston ; income to be expended for the relief of sick and infirm persons.

\$4,500 to be added to the fund heretofore provided for the support of free beds in the City Hospital.

NICHOLS FUND. — LAWRENCE NICHOLS, who died in September, 1862, made the following bequest to the city : "I give to the City of Boston, towards the establishment and endowment of a City Hospital, in case such Hospital shall have been established at the time of my decease, the sum of one thousand dollars." And in case such Hospital should not have been established by the city at the time of his decease, he directed the same amount to be deposited with the Massachusetts Hospital Life Insurance Company, and suffered to accumulate, by the addition of interest, until such a Hospital should be established.

The executor of the will, Wm. Perkins, Esq., has paid into the treasury nine hundred and thirty-seven dollars and

twenty-five cents (\$937.25), being the amount devised, less the *Internal Revenue Tax* on the same, and \$530.50, as one of the "*residuary legatees in the United States*," from the surplus remaining undisposed of. The \$937.25, with the accumulated interest thereon, has been invested in a certificate of City Stock for \$1,000. The balance (\$530.50) remains in the hands of the City Treasurer.

NORCROSS FUND.—1868, January 1. The Trustees received the sum of two thousand dollars from Hon. Otis Norcross, as the foundation of a fund for the benefit of patients leaving the hospital poor and destitute of proper clothing. The principal sum is invested in a City of Boston interest-bearing note, to be deposited with the City Auditor, the interest of which is to be collected annually or oftener, and paid over to the President of the Board of Trustees, for the time being, of the City Hospital, to be by him expended at his discretion for the benefit and temporary assistance of those patients who are in his judgment deserving, and who are destitute of proper clothing in which to leave the Hospital, and having no means of procuring it.

The Ordinance in relation to the City Hospital, Ordinances of 1869, Sect. 9, page 362, provides that said scrip shall be deposited with the Auditor of Accounts, who shall receive the interest as the same shall become due thereon, and add it to the moneys which shall have been appropriated for the use of the Hospital.

RULES FOR ADMISSIONS AND DISCHARGES, ETC.

Applications for admission of patients shall be made to the Resident Physician at the Hospital, on each day of the week, Sunday excepted, between 9 and 11 A.M.

Whenever able, the patient shall apply in person. When not able to appear in person, applications may be made by a friend, and the patient shall be visited at his residence.

Any Trustee, or either of the Physicians or Surgeons in attendance, may, in case of emergency, send a patient in the first instance to the Hospital by written permit, and the Visiting Committee shall decide, as soon as may be afterwards, whether such patient shall remain.

Persons accidentally wounded, or otherwise disabled or injured, shall be received at all hours.

Permits for admission shall be subject to the approval of the Visiting Committee, and they shall have the power at any time to require the Resident Physician to report to them the names of applicants before admitting them, and may dismiss any patient whom they think improperly admitted, or change the terms of admission.

Patients discharged on the recommendation of the physicians or surgeons shall be provided with a certificate stating their condition at the time of discharge, whether cured, relieved, or not relieved, which certificate shall be signed by the Superintendent and Resident Physician.

Whenever a patient is removed from the Hospital without the consent and approval of the Superintendent and Resident Physician, a written statement to that effect shall be required from any person assuming the responsibility of the removal.

The body of any person dying at the Hospital shall not be delivered without a written receipt from the parties taking the same.

In case of the decease of any patient, the Resident Physician shall sign a certificate to that effect, and shall furnish the City Registrar with a copy of the same. He shall also state the time and cause of death, the disposition made of the body, whether delivered to friends or buried from the Hospital. In the last case he shall mention the place of interment.

Patients may be admitted by the Trustees to the privileges of the Hospital, at such rates of board as they may from time to time determine; such board being secured by their friends, or by the authorities of the place to which they belong.

In all cases where, in the opinion of the Trustees, the circumstances of the patient will warrant it, the whole or a part of the board shall be paid. If separate apartments or articles not usually furnished at the Hospital are provided, such payment shall be made therefor as the Trustees shall deem reasonable.

HOUSE RULES.

Patients must be in their proper places in the wards during the visit of the physicians and surgeons, and always by 8 P. M., unless specially exempted by the Superintendent.

Those free patients who are able are expected to assist in nursing, and in such other services as may be reasonably required of them.

Patients shall not leave the Hospital grounds without a pass from the Superintendent, nor their respective wards without the consent of the nurse in attendance.

No patient shall purchase, or cause any member of the household to purchase for him, any article of food whatsoever, nor any other article, without the consent of the Superintendent; nor shall any officer or servant of the Hospital receive a gift or fee from a patient.

Profane or obscene language, loud talking, and incivility, are prohibited.

No patient having acute syphilitic disease, or *mania-à-potu*, shall be admitted as a charity patient, or at a lower rate than twenty-five dollars a week for the former, and fifteen dollars for the latter.

No person shall be admitted to the Hospital whose case is judged to be incurable, unless there be urgent symptoms, which, in the opinion of the Physician or Surgeon, are capable of being relieved.

Patients may be visited by clergymen of their own selection, and, where there is a wish for the performance of any particular religious rite, it shall be indulged, when practicable.

It is expected that patients will implicitly obey the rules of the Hospital. Complaints, for whatever cause, may be made to the Superintendent or Visiting Committee, and when reasonable shall be by them reported to the Trustees.

All employés must be in their respective places during their

hours of duty. The doors and gates of the Hospital will be closed at 10 P.M., at which time all are expected to be quiet, and those not on duty, in their own rooms.

The use of tobacco, wine and intoxicating liquors is prohibited within the Hospital, unless prescribed by a physician.

VISITORS.

No person shall visit any part of the premises, except on business, or at such times as may be fixed for the reception of visitors, without the permission of the Superintendent, or some one of the Trustees.

On Monday, Tuesday, Thursday and Saturday of each week, from two to three o'clock, P.M., friends may be permitted to visit patients, though no patient shall receive more than one visitor on the same day. In all cases, however, the Trustees or Superintendent may exercise discretionary powers as to excluding or admitting visitors.

All visitors must leave when the bell rings at the expiration of the visiting hour.

No visitor will be permitted to take any meal in the Hospital, or pass the night therein, without permission from the Superintendent or one of the Trustees.

No visitor shall be allowed to give any article of food or drink to a patient, unless by permission of the nurse; and any article sent to the patients shall be left with the Superintendent.

SHELF No. 5765.69

BOSTON PUBLIC LIBRARY.

Central Department, Boylston Street.

One volume allowed at a time, and obtained only by card; to be kept 14 days without fine; to be renewed only before incurring the fine; to be reclaimed by messenger after 21 days, who will collect 20 cents, beside fine of 2 cents a day, including Sundays and holidays; not to be lent out of the borrower's household, and not to be kept by transferees more than one month; to be returned at this Hall.

Borrowers finding this book mutilated or unwarrantably defaced, are expected to report it; and also any undue delay in the delivery of books.

* * No claim can be established because of the failure of any notice, to or from the Library, through the mail.

The record below must not be made or altered by borrower.
